

Re-Inventing I.T.

reduce costs • enjoy stable systems • protect your business

Sound familiar?

"I'm frustrated by how much I spend on IT consultants when something goes wrong."

"I have an IT person on staff, but they're too expensive and inexperienced."

"I don't really understand what the IT consultants do while they're here, and the fixes don't seem to last."

"When a technology vendor calls on me, I need someone on my side who can translate what they're talking about."

"I'm not sure how to budget for my long-term technology needs."

Why choose TechNosis?

- ▶ Our goal is the same as your goal: stable and reliable systems.
- ▶ You'll have predictable monthly operations costs.
- ▶ We'll be your Information Technology partner, not just another fix-it consultant.
- ▶ Our approach is based on 14 years of business technology leadership experience, in both corporate and small-business environments.
- ▶ You'll have access to the combined purchasing power of the the TechGuard partner network.

TechNosis, Inc.

Tired of depending on technology that fails when you need it most, then busting your budget to fix it?

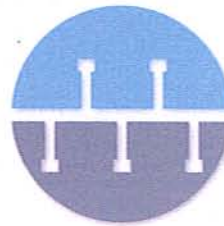

We're not like other IT services companies. You won't pay us by the hour for repairs that may or may not work. Our unique business model makes your goals and our goals the same: keep your systems running smoothly and performing at the highest level. Our motivation is to give you the most stable and reliable system possible.

TechNosis has the solution

You know that keeping your computer systems up and running is critical to your bottom line. But many small and mid-sized businesses lack the resources to have experienced IT professionals on staff, and traditional IT consulting fees can be very costly.

TechNosis offers you a better solution: our one-of-a-kind TechGuard Program

TechGuard includes everything you'd expect from a fully-staffed internal IT Department, at a fraction of the fixed monthly cost:

- ▶ Patches and security fixes
- ▶ Regular proactive maintenance visits
- ▶ System optimization and tuning
- ▶ Budgeting and long-range planning
- ▶ Assistance selecting technology vendors
- ▶ Backup and recovery
- ▶ Disaster planning and recovery
- ▶ Perimeter Security
- ▶ Off-hours and emergency support

Never again pay for blocks of time and inexperienced technicians! TechNosis provides the experts, the process and the documentation, so you always know exactly what you're getting.
